

Starter quick starting 200 ml (A466)

Winter represent a problem not only for the ice on the windshield, but also for the starting of car. This practical spray permits to start easily diesel and petrol engine, and it has a protective action on the battery, because it extends it's life.

STARTER – QUICK STARTING – Easy starts of diesel engines and gasoline during the winter. It ensures fast ignition even at very low temperatures. It prevents wear on battery power and it prolongs the life. **HOW TO USE:** Spray directly on the air filter or the air intake and then start the engine.

Technical Specifications:

Barcode	EAN: 8034108893457
Quantity	200 ml
Confection	12 Pz.
Aspect	Cylinder containing under pressure fluid
Color	Colorless
Odour	Characteristic of solvent
Relative density	a 20°C 0,58 ÷ 0,62 g/ml
Flash point	<45° C
Pressure at 20°C	4/6 bar
Ignition temperature	+ 174,85°C
Vapor pressure at 20°C	587 hPa

MODALITY OF STORAGE

Before using: stock the product in a dry location and don't stock it with a temperature under zero degrees and over 45°C, after the use, keep containers closed. In the original package, the product can be conserved for 24 months.

After the first usage: conserve in a fresh and dry location, away from hot spring. Keep out of reach of children.

Hazards identification:

H222	Extremely flammable aerosol.
H229	Pressurized container: may burst if heated.
H302	Harmful if swallowed.
H315	Causes skin irritation.
H336	May cause drowsiness or dizziness.
H412	Harmful to aquatic life with long lasting effects.

This information, even if reliable, must be considered only approximate. The usage don't imply our responsibility, included the violation of many license. Before using, the users have to verify the suitability of the product for the specific use.
